

24 Hour Personal Alarm Monitoring

As people age, they are at greater risk of stroke, heart disease, arthritis, diabetes or osteoporosis. Worries about falling or being incapacitated can lead to a decline in their ability to live on their own. INS LifeGuard's personal alarm system can give you the confidence you need to remain independent.

*For a little over \$1 per day!**

**Once established.*

- ▲ With the press of a button, you are in contact with a Nurse 24 hours a day
- ▲ Police, Ambulance, Fire Brigade, neighbours or family are immediately called in an emergency

- ▲ Peace of mind knowing your loved ones are safe
- ▲ Test LifeGuard with a FREE, no obligation trial

"The installation of the LifeGuard phone in our house has given us peace and assurance every time we have to leave our mother all by herself." – Elsa
