“It is with great pleasure I provide this testimonial on the way in which Leana Street Consulting has worked with me to recruit senior executives in a number of strategic roles for UnitingCare Ageing. Over the last two years I have experienced the service provided by Leana Street Consulting as both a candidate and an employer. The attention to detail provided is impeccable. This service level is provided to both the employer and candidates who are all treated as clients by Leana Street Consulting. It is very rare in my experience to find an executive recruitment consultant with the capability and skills to have employers and candidates emerging from the process both feeling well served.

Leana Street Consulting has also developed a capability around the Health and Aged Care sector. This enables them to network with a range of different people across both sectors which invariably extend employment opportunities for organisations and candidates.

The services provided by Leana Street Consulting have also been cost effective and competitive when compared to other suppliers.”

“The Recruiting arm of Leana Street Consulting, has been providing exceptional services to Anglican Retirement Villages since our association began in 2004.

Intimate knowledge of the industry and its many idiosyncrasies, along with well developed networks and absolute professionalism have combined to provide our organisation with many superior management candidates. All of these managers have been retained and are proving to be ideal appointments.”
